VUI:

Scenario:

A user has an appointment at 15:30 and is at home (connected to WiFi or other way to locate user). Their appointment begins in two hours and the assistant handling some organisation and planning of the day.

Push Notification:

Hey <USER>, you haven an appointment at 15:30 in <City>. It takes around 45min to get there. Would you like me to remind you 50min early, to get ready?

Some Possible Dialog:

Assistant - User

Hey <USER>, you haven an appointment at 15:30 in <City>. It takes around 45min to get there. Would you like me to remind you 50min early, to get ready?

"Yes"

Alright, would you like to prepare for it now?

"I'm busy right now" -> No

Got it, would you like to prepare on the way?

"Sounds good" -> Yes

You are going to arrive home late today. Would you like to prepare food or place an order?

"It's fine I'll eat there." -> No

Okay, finally, you still have enough time for your daily Spanish lesson.

"I'll skip it today" -> No

Got it, see you in an hour.
